[1]Rates range from 4.74% APR to 20.49% APR, up to 140% financing. Lowest rate shown applies to new and used auto loans (model years 2018 and newer) up to up to 100% LTV. Loan approval, term, and rate received are based on the applicant's credit qualifications, loan-to-value, and model year. Not all applicants will be approved and not all borrowers will qualify for the lowest rate.
[2]No payments for 90 days offer is not available on in-house refinances. Interest begins accruing at the time your loan is funded.
